

**RFD Form Filler** - Responsible for requesting form, providing source CCD, and rendering form in Web browser – this Web browser is contained within the Epic UX.

**RFD Form Manager** - Responsible for getting form representation (i.e. HTML) and pre-populating from CCD content.

**RFD Form Receiver** - Responsible relaying submitted form data to REDCap for storage in database.

**RFD Form Archiver** - Responsible for generating archive log (i.e. audit trail) of RFD workflow events.
